

biloba hinges
FOR INTERNAL DOORS

innovative design

Until now options for speed controlled Self Closing Pivot Doors have been limited to either In-ground Floor Springs or Concealed Overhead Closers.

Now we introduce the unique Biloba Hinge - first in the world and in a class of its own.

After years of development and testing Biloba has arrived.

Biloba – unique, stylish and mechanically practical

- Biloba is a hydraulic hinge manufactured from high quality components and successfully cycle tested for more than 1million actions
- Italian designed and manufactured with an enviable stamp of quality that is second to none.
- Adjustable speed control via one small screw
- FAST and SIMPLE installation
- No concern about glass slippage – a pair of wall to glass hinges can carry 100kg door weight
- Various surface finishes available
- Available in Hold Open or Non Hold Open

unique quality

hydraulic hinges

FOR FRAMELESS GLASS DOORS

The new Biloba Hinge is a world first. It is now possible to hang a frameless glass door on two hinges, with a weight capacity of up to 100KG. Available in Hold Open or Non Hold Open, and due to the patented Hydraulic mechanism, the closing speed can be controlled and adjusted as desired.

Both Wall to Glass or Glass to Glass configurations and a range of surface finishes are available.

Being Italian designed and manufactured, the quality of this product is second to none, with the piece of mind from more than 1 million actions of cycle testing.

Biloba Hinge

WALL MOUNT - FULL BACK PLATE
